

DON'T JUST SAY NO!

A revolution involves a new set of views, ideas, standards and practices overthrowing and replacing an older dominant set.

I. THE FRAMEWORK CLASH.

The seduction is really a seduction of you & your values.

And of course, *“drinking our fill of love until morning and enjoying each other’s caresses”* is the very quintessence of love.

The Sexual Revolution is about a clash of world-views.

1. And it is not fought on the level of the intellectual.
2. It is fought instead at the gut level – at the level of old-fashioned lust and desire and sex drive.
3. It is **justified** on the level of the intellectual.

II. THE ISSUES RAISED BY TODAY’S SECULAR WORLD VIEW IN REGARD TO SEXUALITY.

Statements such as these are the challenges of the sexual revolution chopping at the tree of the Christian world-view and practice in regards to sex:

The question is: How do we chop back at the roots of this revolution effectively instead of being chopped down by it?

III. THE RESPONSE FROM GOD’S WISDOM.

We can say and do much more than just say ‘no.’”

We can take the battle to our culture and it’s dangerous world-view and practice.

We have a very significant **point of contact** with those around us who hold the secular world view.

1. That point of contact is our **sexuality**.
2. The second point is the fact we both have **principles**.
3. These principles lead to sexual **practices** that can be categorized and quantified.
4. These principles and practices produce **results** that can be quantified and analyzed. (

God clearly states in His word what will be the quantified results of their principles and practices as well as ours.

1. He says, through Solomon, theirs will produce “*death*.”
2. He says ours will produce “*life*.”

Here’s the measurable test:

We can test God’s wisdom vs. man’s.

“Why are these principles in Proverbs, written 3000 years ago, true?”

Bec/ there is a loving God who revealed them to us.

Not for our frustration, but for our well-being and life.

We work backwards with people..

1. We start with the argument of their best interest – It is in your interest to keep God’s principles.

2. Here is genuine proof that there is a loving God who gives rules for your good, the good of your family, your society and your world.
3. Where do you go from here?
